Summary

Microsoft Certified Professional with 4 years (4+ years post graduation) of professional experience in solution designing, developing, deploying, testing and debugging of large-scale applications including applications for fortune 500 client with a clear focus on customer needs, business goals, security and scalability.

My tech stack:

- Web Stack: .NET/.NET CORE, Web API, WCF, C#, EF 5/6, Angular, React, Vue, JS, JQuery, Bootstrap, HTML5/CSS3, Signal R Core, ADO.NET Core
- Data Stack: Elastic Search, Kibana, SQL, My SQL, PostgreSQL
- Software Engineering Tools: JIRA, VS Team Services, Github, Bitbucket, Azure DevOps
- Cloud-Native: Rabbit MQ, Docker, AWS, Azure, Kubernetes
- DevOps: Jenkins, CI/CD, Github Actions
- Auth: JWT, OAuth, DocuSign, eBay, FB, Google, Insta, KakaoTalk, WeChat

During the past 4+ years I've worked with:

- Fortune 500 client on their subsidiary named Perseus which deals in sale/purchase/auction of used vehicles on large scale
- Did code refactoring and Wrote Advanced Unit Tests for Legacy Applications which is being used by IDEAL.
- Large scale medical startup software for intelligent appointment scheduling for patients and providers with the times they wish for with no hustle of scanning through a lot of appointments
- Constellation Software Inc' largest CU organization and its partner businesses on reward-based CU applications

- Contributed to the development of a custom CMS written in .NET that helps small businesses create web pages on simple drag-drop while providing analytics and integrations with 3rd party providers.

My past experiences have helped me develop a good understanding of:

- DB Design
- Software Design Principles (KISS, DRY, YAGNI, SR, IOC)
- Software Design Patterns (CQRS, Mediator, Singleton, Façade, Adapter, Builder, Bridge, etc.)
- Architectural Patterns (Microservices, Layered, Tiers)
- TDD Unit testing (X-Unit & MOQ)
- Real-Time Pushes
- API documentation (Swagger)
- Middleware's
- Performance Improvements
- UI/UX
- Agile, Scrum

I'm a strong believer in giving back to the community which has lead me to speak at 250+ technical sessions, Top 3% last quarter @ Stack Overflow with 2.9M reach (2019) and 100k+ Answer views @ Quora.

I'm currently focused on learning .NET Architecture guide, my Algorithms course at Princeton & MIT (with some math) and System Design and Architecture
