PROFESSIONAL EXPERIENCE

CureMD Aug 2020 – To Date

Software Engineer, Software Development

Software Engineer

Aug 2021 – To Date

Part of the Agile Billing Development Team of an organization that specializes in health information management systems and services, offering certified Electrical Medical Records, Practice Management, Patient Portal, and Medical Billing. It focuses on simplifying clinical decision-making, streamlining administrative operations, and ensuring compliance to industry standards, ultimately helping physicians by reducing the need for paperwork.

Responsibilities:

- Unsupervised designing and development of the application.
- Production deployment on Azure DevOps Server, and post-production support.
- Extension of already developed projects, as well as the development of entirely new projects.
- Effectively communicate daily progress and impediments to the stakeholders.
- Provide reasonable feedback and pragmatic solutions during the refinement of user stories.
- Training of new resources.

Tools & Technologies:

Angular, .NET, Javascript, JQuery, HTML/CSS, Bootstrap, SQL, Microsoft Azure, Git, SonarQube, Mixpanel, TFS

Assistant Software Engineer

Dec 2020 – Jul 2021

Responsibilities:

- Supervised designing and development of the application.
- Extension of already developed projects.
- Learning cutting-edge technologies like Angular.

Tools & Technologies:

Angular, .NET, Javascript, JQuery, HTML/CSS, Bootstrap, SQL, Microsoft Azure, Git, TFS

Software Trainee Engineer

Aug 2020 – Dec 2020

Responsibilities:

- Designing and developing standalone sample projects to harness Data Structures and OOP concepts.
- Learning and utilizing development technologies like .NET and SSMS.

Tools & Technologies:

.NET, SSMS, Javascript, JQuery, HTML/CSS, Bootstrap, Git, TFS

Huawei (Internship) June 2019 – July 2019

Information Technology Engineer

The Punjab Safe Cities Authority (PSCA) is a project undertaken by Huawei and Urbane that ensures the establishment, development, and maintenance of an integrated command, control and communication system (PPIC3) for Police in major cities of the province for public safety. By incorporating modern technology and methods, it aims to redefine the capabilities of law enforcement agencies and help ensure public safety.

During my internship, I acquired hands-on experience of:

- Video Vehicle Detection System
- Red Light Management System and Journey Time Management System
- Voice over Internet Protocol (VoIP)
