## EXPERIENCE

---

### Environment Law clinic- ClientEarth

Feb 2022 – July 2022

*project head*

- \* Led a major humanitarian and environmental campaign-project (in collaboration with ClientEarth) to shed light on and take action against the unfair, exploitative, and harmful State policies on Rukooks (commons land) in Thal.
- \* Collected, processed and analysed data about environment-degrading activities such as unsustainable hunting, deforestation, power generation, illegal disposal of land to the military; and their consequences on the region's (declining) biodiversity.
- \* Built engagement avenues including a blog, seminars in academic spaces, and interactive discussions with the local communities. Filed a petition to the courts against all the culprit authorities involved.

### Policy and innovation lead

Jan 2022- March 2023

*Digi-Home*

Lahore

- \* Led the market research effort to understand customer needs and assess the demand for potential features in the product. Analysed data collected from 1000+ surveys and 50+ interviews
- \* Managed and prioritized product backlog. Communicated expectations between the tech team and stakeholders
- \* Managed relations, particularly financial dealings and contractual obligations, among key stakeholders such as partners, investors, manufacturers and retailers. Designed sales strategies and led a number of the sales calls.

### Legal Intern

## PROJECTS

---

### **FeMiles**

#### *Solopreneur*

- \* Launched a small-scale, fully-electric, female-exclusive transit service with the aim of providing safe, economical and eco-friendly transportation to women, especially students, of Lahore. Generated 13, 000 + in revenue (5,500+ in profit) and saved 4000kg CO<sub>2</sub>eq within the first 6 months.
- \* Single-handedly managed the entire service from financial planning, hiring, and purchasing the base-vehicles to continual market-research and feature integration including necessary component installations such as on-board cameras, alarms and cabin locks.
- \* Analyzed video data (roadside and driver-side) and participated in RD of a Computer Vision tool to automate the detection of safety instances.

### **Cryptocurrency in Islamic Financial framework**

#### *Senior-Year Project*

- \* Researched about the position of cryptocurrency in Islamic finances and the reasons for its acceptance or rejection in the context of developing Islamic countries
- \* Performed research on the ways in which crypto currency can help better the socio-economic conditions of third world countries.
- \* Recommended regulations on crypto-transactions within Pakistan.

### **Historical examination of problems of Haiti**

#### *Justice, Peace and Reconciliation*

- \* Researched about the cultural and political problems of Haiti, and how presence of imperialist forces worsened the economic conditions there.
- \* Documented the effects of worsening economic conditions on the environment of Haiti and vice versa.
- \* Provided a list of recommendations to better the economic and political conditions of Haiti.

### **Rewriting Industrial Relations Act, 2012**

#### *Labor Law*

- \* Worked with Dr. Azeem to identify problems of current IRA.
- \* Collaborated with lawyers to formulate recommendations to modify certain provisions of IRA.
