Experience

Norandum AB
Sr. Software Engineer
July 2019 - Present (2 years 9 months)
Pakistan

As Appointed Resource to APCOA Parking AG which is the Europe's largest parking management company. It manages over 1.4m parking spaces across 13 countries, and employs approximately 4,500 people

I Work together with the Project Management and Product Owner to plan and execute projects, ensure that we have appropriate product and technical specifications, direction, and resources to deliver products effectively by establishing realistic estimates for timelines while ensuring that projects remain on target to meet deadlines

Evolve the existing software system applications and architecture in various areas as needed

Develop shared libraries and components to use across the teams to be consumed at server side.

Participate in daily scrum meetings and coordinate for release and sprint planning

perform code reviews to maintain secure and healthy code repository.

Maintain and troubleshoot CI/CD pipeline for automated delivery of our web services.
